

Student Name	Hajar Neazy Abdelmonem Ashour
Student / User ID	349471
Assignment Title	Freelance Project Plan and Delivery Roadmap
Session	Session 3: Essentials of Project Management & Project Management Planning and Scope

1. Project Requirement, Objective & Scope

Client Requirement

A small online store selling handmade home décor wants their product catalog (30 items) and "About Us" page translated from English into Arabic, so they can start selling to Arabic-speaking customers.

Project Objective

Deliver a fully translated, culturally adapted, and error-free product catalog and About Us page within 10 business days.

Measurable Deliverables

- 30 translated product descriptions (Arabic)
- 1 translated "About Us" page (~300 words)
- 1 short glossary of recurring brand/product terms for consistency

Assumptions

- Client provides final English source text before work begins
- No further edits to source content once translation starts
- Client's website platform supports Arabic (RTL) text

In Scope

Translation, proofreading, one round of revisions, delivery in Word/Google Doc format.

Out of Scope

Website upload/formatting, graphic design, ongoing updates after delivery.

2. Tasks, Timeline & Milestones

Task	Deadline	Dependency
Receive source content & confirm scope	Day 1	Client sends files
Translate product descriptions (30 items)	Day 2–6	Source content received
Translate About Us page	Day 6	—
Self-review & proofread all content	Day 7	Translation complete
Send draft to client (Milestone 1)	Day 7	Proofreading complete

Client feedback window	Day 8–9	Client reviews draft
Apply revisions & final proofread	Day 9	Feedback received
Final delivery (Milestone 2)	Day 10	Revisions complete

3. Key Risk & Mitigation

Risk

Client is late sending source content or feedback, delaying the whole timeline.

Mitigation

Set a clear deadline for client inputs at kickoff, and build a 1-day buffer into the schedule before final delivery so a short delay doesn't push past the deadline.

4. Client Progress-Update Message

Hi [Client Name], quick update!

I've completed translation for 20 of the 30 product descriptions and I'm on track to finish the remaining items and the About Us page by tomorrow. I'll send the full draft for your review on Day 7 as planned. Let me know if you have any questions in the meantime!

5. Quality & Delivery Checklist

- ☐ All content translated accurately, no missing sections
- ☐ Terminology consistent across all 30 product entries (checked against glossary)
- ☐ Proofread for grammar, spelling, and natural phrasing
- ☐ RTL formatting checked for readability
- ☐ Draft sent to client for review
- ☐ Client feedback incorporated
- ☐ Final files delivered in agreed format
- ☐ Client confirms satisfaction and project closed
